

Mentorship Programme Sensitisation - Report

Date: 17th April 2026

Vedantaa Institute of Medical Sciences, Dahanu, has been actively and successfully implementing the Mentorship Programme as mandated by the National Medical Commission.

In order to further strengthen and improve the programme, a sensitisation session was conducted for the faculty of VIMS on 17th April 2026 in hybrid mode, starting from 11:00 AM onwards.

The session was hosted by Dr. Jayant Makwana, Professor of Physiology, VIMS. It was attended by the Dean, Dr. Daksha Amonkar, Medical Superintendent Dr. Anil Mane, along with other faculty members who participated both offline and online.

The primary objective of the session was to apprise the faculty about the need, importance, and effective implementation of the Mentorship Programme. Faculty members were also informed about the essential do's and don'ts, as well as the documentation process involved in the programme.

The documentation process includes the completion of the following forms:

1. Know Your Student Form
2. Summary of Meeting Conduction Form
3. Google Form

Faculty members were instructed to diligently conduct mentor-mentee meetings and to observe and address any academic or behavioural concerns among their respective mentees.

The session concluded with an interactive question-and-answer segment, followed by valuable inputs and guidance from the Dean.
