

The National Biomedical Science Conference and Competition (NBRCOM 2025), organized in collaboration with AIIMS, Jodhpur, was held from 5th to 7th December 2025. The event provided a platform for students and faculty from our Vedantaa Institute of Medical Science, Vedantaa Hospitals and Research to showcase cutting-edge research in biomedical sciences. In this, Ms. Dhanashree Pradeshi (III MBBS) presented a poster on her research, demonstrating innovative findings in inflammatory mechanisms inhibited by prodigiosin isolated from clinical isolates. Dr. J. Anitha Selvakumar, Research officer and Ms. Disha Mistry, Tutor (Department of Biochemistry) delivered oral presentations on their studies focusing on cancer therapeutics and the anti-arthritic activities of polyherbal formulations. Their participation reflects the college's commitment to research excellence, scientific inquiry, and interdisciplinary collaboration, while providing opportunities for networking with national research experts. The research findings are expected to contribute significantly to ongoing studies in therapeutics and natural product therapeutic research, with plans to publish in peer-reviewed journals.
