

Date: 20TH JANUARY 2020

Dear students,

Warm welcome to Vedantaa Institute of Medical Sciences, Dahanu

We once again congratulate you for choosing medical profession as your career and to serve the nation by offering service to human beings.

The academic year for your batch will start from 2nd February 2021. We are pleased to inform you that we have arranged an orientation program for 1st year MBBS batch 2020-21 on 1st February 2021 at 9.30 am in the institute. All the students of batch 2020-21 are required to attend the same. This will be followed by visit to the departments of Anatomy, Physiology & Biochemistry and various other facilities. Your parents are also invited to attend the orientation program. Separate sitting arrangement will be made for the parents in the institute auditorium.

As per the National Medical Commission (NMC), a new module known as AETCOM module is compulsorily taught as a part of the new medical curriculum. This module deals with attitude, ethics and communication while dealing with the patients. When it comes to communication, your dressing matters a lot. Clothing for medical professionals is more than just a matter of personal style. It's about creating a good first impression on patients and projecting the more professional image often associated with medicine. What you wear is likely to influence patient opinions about the doctors.

The students are required to come decently dressed while attending the orientation program. You shall come in formal dress that suits the profession (doctor) that you have chosen. After all the society looks at you as future doctors. Come in proper decent clean formal dress, trimmed & combed hair with polished shoes. Aprons will be compulsory while being in the laboratory or the hospital. Jeans and T-shirts will not be allowed during teaching activities including clinical postings. Indecent dressing is not at all allowed in our institute campus.

There will be a foundation course for the new batch as per the new curriculum. Detailed program will be provided to you shortly. Foundation course will be undertaken on daily basis along with other teaching activities, and it will be taken by the internal and external invited faculties.

You will get a very good learning atmosphere in our campus. Wish you a very successful journey at VIMS.

With best wishes,

DEAN

Vedantaa Institute of Medical Sciences,
